PROJECT PROFILE

"Duro-Last has been dependable without failure, All Weather Systems has been honest, reliable and quick to respond from day one." - Frank Fahner

GRANVILLE CITY LOCAL DISTRICT

- Completion of 6+ projects
- Over 170,000 square feet installed here

For nearly 2 decades, Granville Local School District has chosen All Weather Systems and the Duro-Last roofing system to cover their buildings. In addition, they have taken advantage of a Cooperative Purchasing Program to make the buying process easier. Frank Fahner, Facilities Manager, prefers to use these programs because it allows him to select roofing contractors that are qualified, and a roofing system that he trusts. "Public bidding was difficult, cumbersome and slowed the entire process down. The Co-op was easier, and saved time and money. Add in the quality and service that All Weather Systems provides and this was a very simple choice."
